Help Us to Help You

Local Agencies & Consultant Partners:

Join Caltrans in building a more robust statewide geotechnical data archive. Your submittals strengthen the Digital Archive of Geotechnical Data (GeoDOG) and improve access to reliable information for planning, design, construction support, and maintenance.

Why Participate?

- Effective maintenance: Use data from design through construction to make informed maintenance decisions.
- Speed & efficiency: Reduce time spent hunting for past work, avoid duplicate investigations, and support faster emergency response.
- Better decisions: Enable consistent, data-driven design and review statewide.
- Shared value: Every contribution strengthens the GeoDOG system for all practitioners.

What to Submit?

- Geotechnical Design Reports and Foundation Reports
- Test Boring Layouts
- Log of Test Borings and Boring Records
- Pile quantities and driving data
- Pile acceptance testing results
- Laboratory test results
- Other supporting technical materials

How to Submit?

- Visit the GeoDOG webpage
  www.geodog.dot.ca.gov
- Click the User Upload Button
  - An email template with prepopulated fields can be found on this page
  - Submit the completed email template, and documents to be archived to GS.Archive@dot.ca.gov.

Thank you for supporting GeoDOG. Together, we're strengthening California's geotechnical knowledge base.
