

The 922 Handheld Retroreflectometer

Easy, Reliable Sign Management Solution

Pelican Case

- ▶ Molded foam for safe and protected transport of 922 and all accessories
- ▶ Watertight and dust proof
- ▶ Impact resistant; sustains up to 250 lbs
- ▶ Integrated automatic pressure equalization valve (optimal for air travel)
- ▶ Lifetime Guarantee of Excellence

Touch Screen

- ▶ Touch-screen conveniently located for simple point and shoot operation
- ▶ User friendly menu makes recording measurements fast and easy
- ▶ Add custom comments for signs using onscreen keyboard

Data Integration

- ▶ **No expensive 3rd Party Software Required** – Includes data integration software compatible with Excel and Google Maps
- ▶ Have GIS software already? Transfer your data from the 922 into your existing GIS with minimal effort
- ▶ Trimble compatibility

Made & Serviced
in the USA! 

The **922 Handheld Retroreflectometer** is the best solution for ensuring a cost effective, safe, zero error means of meeting the MUTCD retroreflectivity requirements of traffic signs.

The user-friendly 922 comes standard with internal GPS, Bluetooth, barcode reader, pelican carrying case, two rechargeable batteries, data integration software, free training, and expert customer service.

A quick-extend infrared controlled extension pole is available for those hard to reach signs.

Visit pppcatalog.com/922 or call 888.717.7771 for more information on the method for accurately measuring sign retroreflectivity today!
